

Reintegration and Baho Neza Mwana

By the end of July, Baho Neza Mwana Village reintegrated seven children back to their families.

They were given basic kits to use in their families and at school. The visits, dialogues and follow up will be kept to make sure that children are safe and they will not come back on street.

Rusizi mentoring scheme

This month we were very grateful to a wonderful team of teachers from UK – for running a successful week of training for Rusizi mentees. It was conducted in English Language, LC methodologies, classroom management, Lesson planning etc.

The teachers from UK have been very impressed by the positive approach of the Rwandan teachers who seem much keener than in previous years. Their English is also very good. They are making great improvement. Ngwino Nawe Village appreciated painting work they did. They thanked Sarah O'Gray for her help in what she is doing to help mentees.

Photographers group

Rwanda Aid continued to strengthen a group of photographer that we supported to start up a photography studio.

They were given cameras and a computer with additional training from Richard Follett and his daughter Hannah. They are still saying many THANKS to Rwanda Aid, the donors and Richard for this invaluable support. They promised that they will show a difference in making money and improving lives.

Rwanda Aid staff were pleased to spend sometimes with them, taking films about projects that we are running in Rwanda.
