

Baho Neza Mwana village

Those children on left side performed well at school. They are top five. Theobald and Grace, on the right side, and other three children are the top of their classes in primary schools. Bernard and Claude also did the same in secondary school.

They were all given two weeks period to visit their families.

Ngwino Nawe Village

The children were able to pass exams in the second term. Among 67 children from all levels, post primary, primary, and secondary and VTC, 30 children got over 70%. Eleven got over 90%.

This month we were delighted to welcome the family of Kerry and Louise. They are from New Zealand and their parents are specialists in special education.

They were excited to visit Ngwino Nawe children that they will continue to promote the collaboration and partnership with others villages in their country.

Once a week children are given a sport opportunity and play with other normal children different games such as Sit ball, Boneza Ball, etc. This allows children to extend their life experience and external communication with sign language.

Enterprise development projects

We are now supporting 25 enterprise projects and these are providing gainful employment for well very nearly 400 young people.

Five of those groups were trained and won business competition amongst other ten competitors. This month, they fulfilled the requirement to get Rwanda Aid grant to strengthen their projects.

Education

In the Month of July 2017, we started the action of selecting new school based mentors adding to the old 5 sectors of Nyamasheke District. The 5 new sectors selected are listed below: Bushekero sector, Nyabitekero sector, Kanjongo sector, Kagano sector and Rangiro sector. In July we carried out 1st step (collection and marking applications from all applicants) and the last step concerning lesson observation and interviewing all applicants, will be done in August in third term when it opens on 13th August 2017.
